

CAV 2007

19th International Conference on Computer Aided Verification
July 3-7, 2007, Berlin, Germany
<http://www.cav2007.org>

Important dates:

Paper submission (firm): January 28, 2007

Author feedback period: March 9-11, 2007

Notification of acceptance/rejection: March 23, 2007

Final version due: April 20, 2007

Program Chairs

Werner Damm, U Oldenburg
Holger Hermanns, Saarland U

Workshop Chair

Christoph Scholl, U Freiburg

Local Chair

Holger Schlingloff, Humboldt U

Tool Chair

Henning Dierks, OFFIS

Organized by

SFB / TR 14 AVACS
<http://www.avacs.org>

Program Committee

Parosh Abdulla, Uppsala U
Rajeev Alur, U Penn
Sergey Berezin, Synopsys
Armin Biere, JKU Linz
Roderick Bloem, TU Graz
Ahmed Bouajjani, U Paris 7
Alessandro Cimatti, IRST Trento
Edmund M. Clarke, CMU
Werner Damm, U Oldenburg
Limor Fix, Intel
Patrice Godefroid, Microsoft Research
Ganesh Gopalakrishnan, U of Utah
Susanne Graf, Verimag
Orna Grumberg, Technion

Holger Hermanns, Saarland U
Robert B. Jones, Intel
Orna Kupferman, Hebrew U
Robert P. Kurshan, Cadence
John Lygeros, ETH Zuerich
Tom Melham, Oxford U
Ken McMillan, Cadence
Jakob Rehof, U Dortmund
Koushik Sen, UC Berkeley
Fabio Somenzi, U Boulder
Ashish Tiwari, SRI International
Frits Vaandrager, U Nijmegen
Yaron Wolfsthal, IBM Haifa

Affiliated Events

AHA 07, July, 2
International Symposium
on Automatic Heap Analysis

ARTIST Workshop, July 1-2
Tool platforms for modelling,
analysis and validation
of embedded systems

BMC 07, July, 8
5th International Workshop
on Bounded Model Checking

FMICS 2007, July, 1-2
12th Intl. Workshop on Formal
Methods for Industrial Critical
Systems

GVD 2007, July, 1-2
3rd German Verification Day

HW-MC-Comp, July, 3-7
Hardware Model Checking
Competition

PDMC 07, July, 8
6th Int. Workshop on
Parallel and Distributed
Methods in Verification

SPIN 2007, July, 1-3
14th International SPIN
Workshop on Model
Checking of Software

SMT 2007, July, 1-2
5th International
Workshop on
Satisfiability Modulo
Theories

SMT-COMP, July, 3-7
Satisfiability Modulo
Theories Competition

Invited Speakers

Byron Cook, Microsoft Research
David Russinoff, AMD
Thomas Kropf, Bosch
